ABOUT ME

I am a student of SMK IT Rabbaanii Islamic School and have a passion for front-end development. I have skills in HTML, CSS, JavaScript, and also UI/UX design using Figma. I am always eager to explore the latest web technologies and contribute to creative and innovative projects. I am interested in collaborating in a team, learning from new experiences, and developing my skills in the world of web development.

Experience

1. Slicing Culinary Food Website (October 204)

Created a food website using HTML, CSS, and JavaScript to showcase my design and web development works. The website was optimized for responsive display on various devices. (https://culinary-clone.vercel.app/)

2. UI/UX Design for E-Commerce App (September 2024)

designed the user interface of an e-commerce application. Used Figma to create wireframes and interactive prototypes optimized for user experience.

Skills

Web Development:
- HTML, CSS, JavaScript
- Responsive Web Design

UI/UX Design:
- Figma
- Experience in interactive prototypes

Certifications

- Android Beginners
